My Portfolio [↗](#)

*Full-Stack Web Developer with experience in **React**, **Node.js**, **Laravel**, and **Django**. Skilled in designing, developing, and maintaining **scalable**, **high-performance**, user-focused web applications, following software quality standards and architectural best practices.*

## EXPERIENCE

---

### ITSS Paris – Full Stack Developer

July 2025 – Present

- Development and maintenance of **scalable** web applications using modern **full-stack** technologies.
- **Data migration** and **synchronization** from legacy systems, ensuring data integrity and consistency.
- **Performance optimization** through code refactoring, database query optimization, and system tuning.
- Implementation of **unit tests**, debugging, and bug fixing to improve software quality.

### SITI – Full Stack / IoT Developer

February 2025 – June 2025

- Development of a **real-time** machine monitoring **dashboard** for industrial supervision.
- Implementation of **real-time data processing**, optimized data fetching, and system reliability.
- Prevention of data loss, validation of sensor data, and correction of communication errors.
- Contribution to **firmware** development for microcontrollers used in **IoT** data acquisition.

### Lecourt Consulting – Full Stack Developer

July 2023 – June 2024

- Development and maintenance of **SaaS** platforms for entrepreneurs in France.
- Contribution to multiple SaaS solutions using various technologies and **RESTful APIs**.

## EDUCATION

---

### National School of Applied Sciences (ENSA), Agadir

2025

Master's Degree : Software and Embedded Systems Engineering

### Higher School of Technology Essaouira (ESTE)

2023

Bachelor's Degree : Computer Systems and Software Engineering

## PROJECTS

---

### IJ Stats (Statistics Tool Info-Jeunes)

Data analysis platform intended for Info-Jeunes CIDJ centers (**Django**).

### IJ Connect (Extension of IJ Stats)

Developed new features for IJ Stats, including a **messaging system** and **appointment management** (**Django**).

### Machine Supervision System

Dashboard for **real-time monitoring** of machine productivity (**Node.js**, **React**).

### Crée Mon Entreprise

Platform helping entrepreneurs create companies in France (**Laravel**).

## SKILLS

---

**Front-end:** JavaScript (**React**, **Angular**), HTML/CSS (**Tailwind**, **Bootstrap**)

**Back-end:** **Node.js**/Express, **PHP**/**Laravel**, **Python**/**Django**, **Java**/**JEE**

**Databases:** **PostgreSQL**, **MySQL**, **MongoDB**, **Firebase**

**CMS & Tools:** **Drupal**, **Git**, **Docker**, **Postman**, **Figma**, **Redmine**

**Languages:** Arabic (native), **English (C2)**, **French (C1)**
